**Respect** the environment and emphasise every employee's responsibility to improve environmental performance;

**Integrate** environmental considerations into all of our activities including considering the environmental impact of products and services in our purchasing decisions;

**Minimise** our use of resources and wastage of materials as far as economically and practically possible, undertaking appropriate reviews to measure progress;

**Save** energy through the monitoring of unnecessary use of energy sources and ensuring equipment is kept switched off when not needed;

**Share** experiences with others to foster wider improvements within the community and communicate with the Research and Education community on environmental matters.
