

# Application for Network Services for a Sponsored Connection Licenced by a Regional Network Operator

**The information you supply will be held and processed in JANET(UK)'s databases and used to implement and support your JANET connection.**

**It will not be supplied to any external body for any other purpose. It will not be used by JANET(UK) for any other purpose. The JISC and Funding Councils may request this information for auditing purposes.**

Information supplied in section 4 will be held and processed in JANET(UK)'s databases and used to document your IP address assignment. JANET(UK) may be required to pass this information to the RIPE NCC for auditing or assessment purposes. It will not be supplied to external bodies for any other purpose. JANET(UK) and the RIPE NCC will not use it for any other purpose. Contact details provided within section 4 will be used within the RIPE WHOIS database, which is publicly accessible.

This form should be completed by the hosting organisation and returned electronically to JTAG.

If it is not possible to complete the form electronically, please ensure that the answers are written in capitals to reduce the chance of transcription errors. Please delete as appropriate where marked \*.

If you have any questions or comments about this form or would like some assistance when filling it in, please contact JTAG.

Form completed by:	
Name:	<input type="text"/>
Position:	<input type="text"/>
Organisation:	<input type="text"/>
Date:	<input type="text"/>

## 1 Organisational details

*Please provide details of the sponsored organisation and the contact for the organisation:*

Sponsored Site:

*The full name of the organisation to be connected as a sponsored site.*

Name:

*The full name of the person at the sponsored site responsible for the connection.*

Position:

*The position held within the organisation by the person named above.*

Full postal  
address:

*The full postal address of the sponsored organisation*

Telephone:

*Telephone number for the person.*

Fax-no:

*Optional.*

E-mail:

*The e-mail address of the person.*

**2 Connection Details**

*Please provide details of the organisation to be connected as a sponsored connection:*

Description of organisation  
to be connected:

Benefit to hosting site:

*Provide details of how the provision of this connection benefits the aims of the hosting site.*

Starting Date:

*Proposed starting date of licence for the sponsored connection.*

*Please provide details of the invoicing contact for the licence:*

Name:

*The full name of invoicing contact.*

Full postal  
address:

*The full postal address of the invoicing contact.*

### 3 DNS Registration

For further information on registering domain names under .ac.uk and .gov.uk please see the terms and conditions on our web page:

<http://www.ja.net/services/connections/domain/domain-name.html>

The organisation connecting under this licence is permitted to have one domain name registered free of charge under .uk. JANET(UK) will submit **all** requests for new domain registrations on behalf of those organisations connecting as Sponsored connections. If the requested name is not within the .ac.uk or .gov.uk domains administered by JANET(UK) but is administered by Nominet UK then please ensure that you familiarise yourself with the Terms and Conditions of registration, as published by Nominet UK at: <http://www.nic.uk/ref/terms.html>

Please give the proposed domain name for registration and details of at least two nameservers, ie. names and corresponding IP addresses, with a brief description of how the organisation is eligible for the registration.

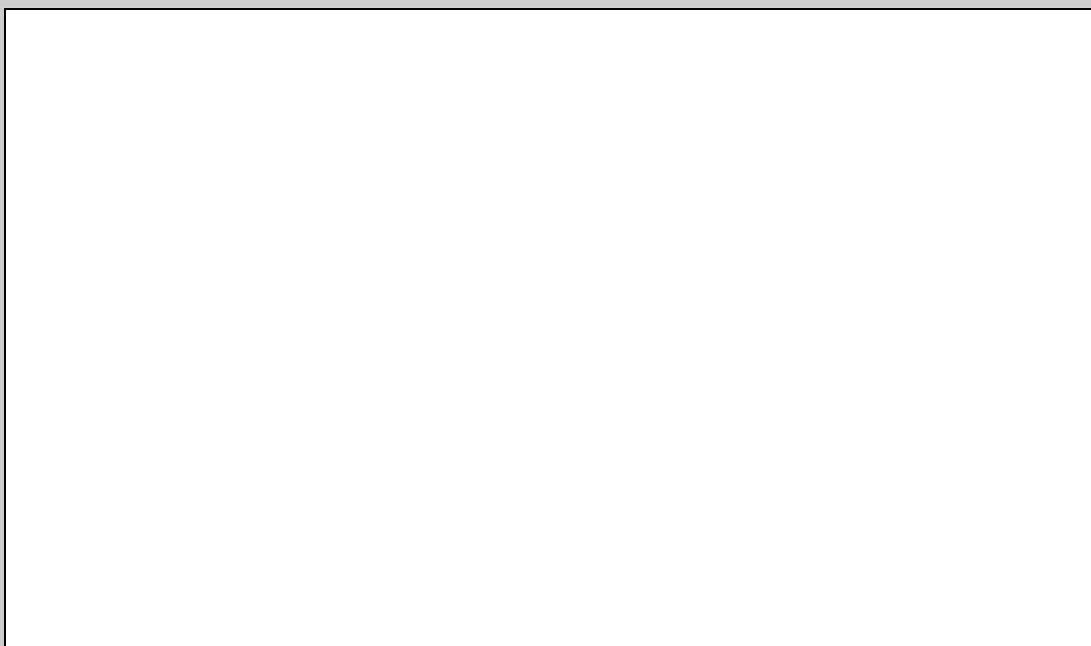

Proposed Domain Name:	<input type="text"/>
Brief Description:	<input type="text"/>
Primary Nameserver:	<input type="text"/> <i>Provide the name and IP address of the primary nameserver to host the domain.</i>
Secondary Nameserver:	<input type="text"/> <i>Provide the name and IP address of the secondary nameserver to host the domain.</i>
Other Nameservers:	<input type="text"/> <i>Provide the name and IP address of any additional nameservers.</i>

## 4 Request for JANET public IP addresses

The RIPE Network Coordination Centre (RIPE NCC) is one of four Regional Internet Registries providing allocation and registration services that support the operation of the Internet globally. RIPE NCC allocates the JANET aggregated range of IP addresses. Any subsequent assignments made from within this allocation must therefore comply with the current RIPE assignment policies. The policy regarding IP address space assignments and the format of requests is agreed by the RIPE membership community, documented by the RIPE NCC and must be adhered to in all cases.

### 4.1 Overview of sponsored organisation

*Please provide details of the structure of your organisation and the way in which addresses will be distributed among departments. Include details of any parent company, subsidiaries and relevant contact persons.*

## 4.2 Applicant details

*Please provide details of the person requesting these IP addresses:*

Name:   
*The full name of the applicant (including forenames – not just initials).*

Position:   
*The current position held by the applicant.*

Country:   
*The ISO 3166 two letter country code for the name of the country in which the applicant is located. e.g. GB*

Telephone:   
*Telephone number for the applicant, specified as:  
 + <country code> <area code> <telephone number>*

Fax:   
*Optional (specified as per telephone number above).*

E-mail:   
*The e-mail address of the applicant.*

## 4.3 Address space assignment

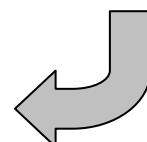

Has the requester considered using private IP addresses rather than, or in addition to, public IP addresses? In general, we prefer organisations to have considered this.  \* Yes/No

Has the organisation had a request refused in the past?  \*Yes/No

Will you return any address space to a provider as a result of this IP address request?  \*Yes/No

	Address range	Returned to	Before (date)
e.g.	130.246.0.0 - 130.246.255.255	Provider X	31/01/04

If Yes please provide details here

## 4.6 Network Template

The information supplied here will be entered in the RIPE database. RIPE NCC require at least two contacts, one administrative and one technical.

### Administrative contact details

Please provide details of the **administrative** contact for these IP addresses. This must be someone who is physically located at the site of the network:

Name:

*The full name of the contact person (including forenames - not just initials).*

Full postal address:

Telephone:

*Telephone number for the person. Specified as:  
+ <country code> <area code> <telephone number>*

Fax-no:

*Optional (specified as per telephone number above).*

E-mail:

*The e-mail address of the person.*

### Technical contact details

Please provide details of the technical contact for these IP addresses, this person does not have to be physically located at the site of the network.

Name:

*The full name of the contact person (including forenames - not just initials).*

Full postal address:

Telephone:

*Telephone number for the person. Specified as:  
+ <country code> <area code> <telephone number>*

Fax-no:

*Optional (specified as per telephone number above).*

E-mail:

*The e-mail address of the person.*

## 4.7 Equipment Description

Please describe the equipment that will be used in the network. For each type of equipment indicate the function of the equipment and provide information regarding the way it uses IP address space.

Equipment name:	<input type="text"/>
	<i>Type of equipment requiring IP address space e.g. Printers, Router, Workstations</i>
Manufacturer name	<input type="text"/>
	<i>Name of equipment manufacturer e.g. HP, Cisco, Dell</i>
Model number:	<input type="text"/>
	<i>Model number of equipment.</i>
IP utilisation:	<input type="text"/>
	<i>The number of IP addresses that each unit of this type of equipment will use.</i>
Other data:	<input type="text"/>
	<i>The number of units of this type of equipment that will be requiring public IP addresses.</i>

Equipment name:	<input type="text"/>
	<i>Type of equipment requiring IP address space e.g. Printers, Router, Workstations</i>
Manufacturer name	<input type="text"/>
	<i>Name of equipment manufacturer e.g. HP, Cisco, Dell</i>
Model number:	<input type="text"/>
	<i>Model number of equipment.</i>
IP utilisation:	<input type="text"/>
	<i>The number of IP addresses that each unit of this type of equipment will use.</i>
Other data:	<input type="text"/>
	<i>The number of units of this type of equipment that will be requiring public IP addresses.</i>

Equipment name:	<input type="text"/>
	<i>Type of equipment requiring IP address space e.g. Printers, Router, Workstations</i>
Manufacturer name	<input type="text"/>

Model number:	<input type="text"/>
	<i>Model number of equipment.</i>
IP utilisation:	<input type="text"/>
	<i>The number of IP addresses that each unit of this type of equipment will use.</i>
Other data:	<input type="text"/>
	<i>The number of units of this type of equipment that will be requiring public IP addresses.</i>

**If there is insufficient space, please continue on a separate sheet.**

## 4.8 Additional Information

*Are there any special circumstances surrounding this request? For example, if substantial network expansion is planned, it is useful to include a deployment plan with a list of events and planned dates that will lead to the use of the requested addresses. A topological map of the current and planned network infrastructure can also be helpful. This can either be e-mailed or faxed to JTAG.*

*Information regarding any other special circumstances, such as the use of old systems or special purpose hardware that affects the request, should also be included here.*

## 4.9 Nameserver Information

Provide details below for the nameservers that will be hosting the reverse delegation of any address space assigned as a result of this application. If the nameservers to be used for the reverse delegation are the same as those listed in section 3, then you may leave this section blank.

Primary Nameserver:

*Provide the name and IP address of the primary nameserver.*

Secondary Nameserver:

*Provide the name and IP address of the secondary nameserver.*

Other Nameservers:

*Provide the name and IP address of any additional nameservers.*

**Thank you for filling in this form.**

**Please send it by e-mail to [service@ja.net](mailto:service@ja.net), or post, to the address given on page 1.**

If you have any further questions, please contact JTAG.
